Preparing For Occupation Of Kyushu Island

Minesweepers Are Clearing Harbor Of Sasebo For U. S. Entrance

OCCUPATION ARMY IS FANNING OUT

By FRANK ROBERTSON
(U. S. Staff Correspondent)

TOKYO, Sept. 10.—The Jap Domei agency reported that about 50 American minesweepers began clearing the approaches to the western Kyushu port of Sasebo today in preparation for mass occupation of the southernmost Jap home island.

Domei said that Adm. Raymond A. Spruance, commander of the U. S. Fifth Fleet, disclosed that surface units of his force will enter Sasebo Harbor as soon as minesweeping is completed. Sasebo lies within 50 miles northwest of Nagasaki which was blasted by the war's second atomic bomb August 9.

Extend Occupation
Gen. Douglas MacArthur's occupation army, with the aid of naval surface forces, was fanning out over new Jap-held territories and Japanese forces were laying down their arms in increasing numbers.

MacArthur himself set the formula for the bloodless occupation of Japan and empire satellites with instructions to his huge occupation army of 400,000 troops to avoid "unnecessary violence of undue oppression."

Lt. Gen. John R. Hodge, pushing into Korea with the vanguard of his 100,000 strong 24th Army Corps, pointed out that not one of

Announcement that another collection is scheduled emphasizes the need of saving waste paper, despite the fact that the war is over.

There seems to be need of a campaign to emphasize to young riders of bicycles that they should heed traffic regulations. Some of them seem to have the idea of riding their bicycles on the wrong side of the street, which is a dangerous practice when there is auto traffic on the streets.

New Castle had a number of heavy rainstorms over the weekend, accompanied with much thunder and lightning. Several places were struck by lightning, but no serious damage is reported here. The rains ended the drought that was beginning to become serious here.

Fifty-miles-an-hour speed signs are beginning to reappear along the highways of the district. During wartime the speed limit was 35 miles per hour.

Street department workmen were engaged this morning in hauling dirt and stones from downtown streets which had been washed down from the hills during the week-end storms.

Southern Korea Is Surrendered To U. S. Officers

By HOWARD HANDLEMAN
(U. S. Staff Correspondent)

KYONGSONG, Seoul, Korea, Sept. 10.—Southern Korea, most treasured of Japan's conquests, was in American hands today, following a simple but dramatic surrender ceremony.

Surrender documents were signed at 4:15 o'clock yesterday afternoon in the cream and gold throne room of the Japanese governor general's palace.

Sign For U. S.
Lt. Gen. John R. Hodge and Adm. Thomas C. Kinkaid signed for the United States.

The Japanese Governor General Nobuyuki Abe, army commander Lt. Gen. Yoshio Kozuki and the naval commander Vice Admiral Yamaguchi sat across a blue-clothed table and signed for their country.

Also sitting at the surrender table were Vice Adm. Daniel E. Barbey, who guided the convoy of U. S. landing forces to Korea, and a number of other American generals and officers.

While the three Japanese emissaries signed away Japan's first important conquest, some 25,000 Koreans, who had been victims of 30 years of Japanese colonial treatment, celebrated joyously throughout the country.

De Gaulle Seeking Greater Unity For France And Britain
LONDON, Sept. 10.—(INS)—Gen. Charles De Gaulle, president of the provisional government of France, in an interview given to the London Times, today called for greater solidarity and a unity of aims by Britain and France.

The French leader stressed the need for close cooperation in face of a possible resurgence of German military power. He deplored that Britain, though voicing her desire for French action, consented to a settlement of the German problem at Potsdam without France's participation.

This same lack of a common policy between the two western democracies led to the Syrian incident earlier in the year, De Gaulle said.

Lightning Shocks Scott St. Man

Sitting on his front porch swing with his head lying against the chain, Louis Schetron was rendered unconscious by the force of a lightning flash which hit a pole beside a skating pond 300 feet from his home at 223 Scott street, Saturday afternoon.

Mr. Schetron was taken to the New Castle hospital but was found to be uninjured. He is returning home today.

The lightning hit with a flash like a red sunset, according to a neighbor, but left the pole undamaged.

Lightning Sets Large Barn Afire

Loss Of Around \$8,000 Caused By Fire In Storm Near White Chapel

Fire caused by lightning during a severe storm on Saturday afternoon destroyed the large barn and some of the contents on the farm of Otto Emery in East Lackawanna township near White Chapel, Meadville county.

All of the farm machinery was saved, but 40 tons of baled hay, several hundred bushels of grain and one calf were lost in the blaze which completely destroyed the barn.

The lightning which struck the barn also followed electric lines into the home, but did not start a fire. Electric light bulbs in the home were exploded by the lightning.

Dog Brings Aid

When the fire developed, a shepherd dog of the family raced a considerable distance and by furiously barking brought the fire to attention of the neighbors, who went to the scene to aid in battling the fire. The farm on which the fire occurred is the former Harry Anderson farm, having been purchased about a year ago by the present owners, who came from Pittsburgh. Loss in the fire is estimated at around \$8,000, partially covered by insurance.

Premier Tojo Responsible For War, He Admits

By CLARK LEE
(U. S. Staff Correspondent)

TOKYO, Sept. 10.—"I am responsible for the war," former Jap Premier Gen. Hideki Tojo told me today.

"I accept full and complete responsibility," Tojo added, "but I don't feel that makes me a war criminal."

Now a "retired" citizen and farmer, Tojo received me in the garden of his modest home in a remote suburb of Tokyo.

The former Jap war lord was dressed in white shorts and shirt and had just come from digging sweet potatoes in his garden. He was in a jovial frame of mind but refused to discuss politics except for a few serious statements.

Report 22,000 Ford Workers Back On Job

DETROIT, Sept. 10.—(INS)—More than 20,000 were idle by strike in Detroit today as 22,000 Ford workers returned to their jobs, resuming production of 1946 cars and trucks.

Some 4,500 remained idle in the Kelsey-Hayes Wheel Co. strike, which had caused the temporary lay-off of the Ford workers. The dispute and the resulting shortage of wheels and brake drums, kept 7,000 other Ford employees idle at the Highland Park tractor division.

Japanese Army Headquarters To Be Abolished

Gen. MacArthur Orders Japanese Imperial Army Headquarters Abolished By Sept. 15

By FRANK ROBERTSON
(U. S. Staff Correspondent)

TOKYO, Sept. 10.—General Douglas MacArthur announced today that he had ordered the Japanese Imperial headquarters abolished effective Sept. 15.

There was no amplification of the announcement but it was interpreted by observers as meaning that in three more days the great task of dismantling the three million Jap troops in the home islands will be considered completed.

In Full Control

This responsibility had been left until now to the Japanese government and general staff and MacArthur's order abolishing the Imperial army headquarters was taken to mean the allied army of occupation has gained full control over the demilitarized country.

MacArthur formally proclaimed occupation of Korea and revealed that Japanese officials will be continued in office in the liberated country for the present.

"Until further orders," MacArthur ruled, "all governmental, public and honorary functions, public health and other essential services shall continue to perform their usual functions and shall preserve and safeguard all records and property."

Quisling Guilty; Death Sentence Given By Court

BULLETIN

OSLO, Sept. 10.—Vidkun Quisling was convicted today of the crime of selling out Norway to the Nazis and was sentenced by the court to death.

The verdict and sentence had been a foregone conclusion and even Quisling's defense attorney admitted that the former puppet premier had no friend in a betrayed Norway.

Plea To No Avail

A desperate last-minute personal appeal by Quisling with a plea that he was entirely misunderstood and actually sought to be the savior of Norway was to no avail.

Quisling denied steadfastly that he had aided the Nazis in overthrowing Norway on April 9, 1940.

When he saw the German intent, Quisling contended, he took over

Girl Slayer To Be Taken Back To Crime Scene To Repealed

Swift Action On Repeal Is Promised By Congress, Probably This Week

WASHINGTON, Sept. 10.—(INS)—Swift action was promised today to repeal war time as thousands of letters poured in on Congress protesting continuation of daylight saving.

For hundreds of congressmen—chiefly those from rural areas—war time repeal was the hottest issue facing them.

Rep. Cannon, D. Mo., leader of the anti-war time House bloc, has received several thousand letters demanding a return to standard time with 40 to 50 more pouring in daily. Other Congressmen have also received large numbers of protests.

Fifteen repealer bills were introduced in the House alone in the first two days of the reconvened Congress and several in the Senate. Still others were introduced earlier this session.

Heeding the protests of aroused constituents Rep. Boren, D. Okla., chairman of a House Interstate Commerce subcommittee on standard time, predicted flatly:

"The House will undoubtedly pass a bill this week repealing war time."

Some 7,000 More American Troops Will Arrive Home From European Area

BOSTON, Sept. 10.—(INS)—Seven transports arrived in Boston today from Europe carrying some 7,000 troops including part of the heroic 45th (Thunderbird) Division, veterans of four D-Day invasions.

The Thunderbird fighters, most decorated group to disembark, included in their 5,738 officers and men, six Congressional Medal of Honor winners. They arrived aboard the Sea Owl, Marine Devil and Madawaska.

Each man in the division holds the French Croix de Guerre, awarded by General De Gaulle. On hand to greet them was Maj. Gen. Robert T. Fredericks, 38-year-old division commander, officer who flew from Washington to meet his men who served 511 days in combat.

Other ships docking at Boston today were the Felipe M. Lazari, the Daniel Drake, the John Ireland and the Lakeland Victory.

Ensign J. McCann Is En Route Home

Youthful Navy Pilot Released From Tokyo Prison Camp, Confined Since February 16, 1945

Mr. and Mrs. J. H. McCann of 913 West Clayton street received a telegram from the War Department in Washington, D. C., bearing the good news that their son, Ensign James Arthur McCann, a prisoner of war in Tokyo since February 16, 1945, has been released and is en route home.

Ensign McCann was previously reported missing in action while performing his duties as a Navy pilot in the Pacific area. No other news was received from him, until a report was heard that he was aboard the hospital ship, Benevolence, several days ago, and on Saturday his parents received the telegram from the War department.

Ensign McCann has been in the service for three years. His brother, John McCann, MM 2-c, is stationed in Florida.

More Than 20,000 Troops Arrive In New York Harbor

NEW YORK, Sept. 10.—(INS)—More than 20,000 troops returned to the United States today via New York, the bulk of them carried by the huge British liner Queen Mary.

The Queen had the distinction of carrying the one millionth American soldier to be redeployed since V-E day as well as World War I buddies of President Truman.

The big ship docked at 8:30 a. m. EWT in the van of six other troop ships. Aboard the Queen were members of the famed 25th of Santa Fe division, comprised of many men formerly in the Missouri and Kansas National Guard.

President Truman served in the 25th as an artillery officer and many senior officers now in the division served with him.

Congress Ready To Take Up Some Major Problems

Reconversion Program May Cause Some Strong Controversies At Sessions

WASHINGTON, Sept. 10.—(INS)—Congress moves toward decisive action on major legislative problems this week with the administration facing probable defeat on part of its reconversion program.

The Senate Finance committee was called into session today to consider the Kilgore \$25-a-week unemployment compensation bill. Some administration members forecast drastic modification.

The House, however, appeared ready to speed passage of a bill setting up a single surplus property administrator as requested by President Truman and to enact a measure designed to promote voluntary enlistments for the armies of occupation.

Senate committees also appeared ready to hasten legislation allowing the President to reorganize government departments and to reach a policy on the draft at least partially in line with the views of Mr. Truman.

Major Split Looms

A major split between Congress and the administration loomed today, however, on the Kilgore bill to bring all state unemployment compensation up to a maximum of \$25 a week by appropriating federal money.

Administration members of the finance committee predicted rejection of the bill, but said a compromise measure providing unemployment compensation for maritime and federal workers—now covered by state laws—may be voted.

Opposition to the \$25-a-week bill was reported even stronger in the House.

Japs Seek To Cover Evidence Of Brutalities

ARAI, Japan, Sept. 10.—(INS)—The Japanese sought desperately today to cover evidence of maltreatment of Allied war prisoners in apparent fear of their fate in war criminal trials.

A total of 887 liberated war prisoners and 21 civilian internees streamed across the platform of the railroad station at this rustic fishing village and train junction 10 miles west of Hamamatsu on the south coast of Honshu today in a day-long evacuation to United States Navy ships off shore.

Clean Stockades

With the arrival of American rescue parties, Jap prison wardens hastily moved to clean up the filthy stockades, stuff food down their captives and change their attitude from what once bordered on barbarism to smiling ingratiating gestures of friendship.

But the Japanese moved too late to change the corroborating testimony of American from three so-called "Hitchies in Hell" camps.

Freed inmates from Nagami prison, 12 miles south of Nagoya, gaunt men from Yokohama, 19 miles southwest of Nagoya, and from Mitsumasa in Nagano prefecture, 90 miles from Nagoya, told how they existed on a starvation diet for endless months and how nearly all of them had been flogged for minor infractions of camp rules.

Flogging proved fatal for some of the prisoners while other died of malnutrition.

Nation's Capital Gives Acclaim To Corregidor Hero

Huge Reception At Washington Is Planned For Gen. Wainwright Today

WIFE WAITING TO GREET HIM

(BULLETIN)

WASHINGTON, Sept. 10.—(INS)—Gen. Jonathan M. "Skinny" Wainwright stepped at long last into the arms of his wife and into the heart of an admiring Washington at National Airport today.

The hero of Bataan and Corregidor arrived at the nation's capital at 12:25 p. m. EWT after a non-stop flight from San Francisco, amid the ruffle of drums and the strain of the general's march from the army band.

United Nations Council To Meet

Initial Sessions Will Be Opened On Tuesday Following Byrnes Arrival

LONDON, Sept. 10.—(INS)—The council of United Nations foreign ministers convening in London to settle numerous problems in post-war Europe faced the additional burden today of coping with matters relating to Japan as a result of Tokyo's surrender.

Initial sessions of the council will be opened tomorrow morning by the arrival in London today of U. S. Secretary of State James F. Byrnes, Soviet Foreign Commissar V. M. Molotov, arrived in London today.

While the final peace settlement for Italy seems among the foremost matters for discussion, numerous more vexing problems regarding Germany and central Europe are slated for consideration.

Vexing Problems

The political writer for the London Daily Express said that, as regards Japan, the foreign minister of the Big Five—the United States, Britain, Russia, France and China—will discuss the fate of Japanese war criminals.

The writer pointed out that the Jap criminals are likely to number many thousands and will include both military leaders and high civilian officials.

As soon as evidence against them is collected, the men concerned will be isolated in special camps and brought to trial as quickly as possible, it was believed.

More Atrocities Being Revealed

Official Australian Report Details New List Of Jap Atrocities

LONDON, Sept. 10.—(INS)—Terrifying details of Japanese atrocities in the Southwest Pacific were revealed today in an official Australian report which related instances where the Japs ate the flesh of their victims and ravished nuns and native women.

The report said that the Japanese bayoneted hundreds of American and Australian troops to death. The Japs ate the flesh of their victims and ravished nuns and native women.

Dr. Herbert V. Ewart, minister of external affairs, presented the report to the United Nations War Crimes Commission.

Presently in London, Dr. Ewart declared that it was the duty of the Allies to see that those who organized such a system of punishment be completely eradicated.

Dead Mutilated
Accounts were related of a great number of cases where American and Australian dead were mutilated with swords and knives.

One Jap soldier is quoted as admitting that he had been detailed to collect enemy dead and that he first tasted human flesh on January 10, 1943. He asserted that it tasted comparatively good.

Shooting and bayonetting in some instances was carried out either within the presence of or within hearing distance of those awaiting their turn for execution.

One account told how two American prisoners on Guadalcanal who had escaped into the jungle were recaptured. A Jap medical officer then dissected them while they were still alive and their lives were taken out.

Many native women were tied to stakes, raped and then bayoneted to death, the report said.

Also on Guadalcanal, two Roman Catholic priests and one Dutchman were bayoneted to death. Nuns were found naked after having been raped, the report said.

The report was based on testimony of over 500 witnesses.

PREPARING FOR OCCUPATION OF KYUSHU ISLAND

The 180,000 Japanese in Korea will be permitted to carry their weapons out.

Internal conditions in Korea were being carefully watched, especially in view of the expressed displeasure of Koreans at Hodge's action in allowing Japanese military governors to retain temporary control of the American-occupied southern part of the peninsula.

One Incident
International News Service Correspondent Howard Handelman reported from Kyongsong (Seoul) the Korean capital, that Jap police fired into a crowd of Koreans who were parading in celebration of the American entry.

In other areas, movements of the American occupation army went into high gear without incident.

Preliminary occupation of northern Honshu got under way with the landing of amphibious forces, and Hakko, northernmost of the Jap home islands, was expected to come under American control within the next few days.

Gen. Walter C. Krueger was making last-minute preparations for the landings of massed forces of his veteran Sixth Army on Kyushu where advanced airborne spearheads set up headquarters last week.

In the Jap capital itself, some 15,000 troops of the mechanized First Cavalry Division maintained control of the center of the defeated Jap empire.

CONGRESS READY TO TAKE UP SOME MAJOR PROBLEMS

(Continued from Page One)

House ways and means committee, which also reaches a showdown on the proposal this week.

May Suggest Compromise
Sen. Vandenberg (R-Mich.) was expected to suggest a compromise under which sufficient federal funds would be appropriated to prolong state unemployment payments to 26 weeks on the ground that such a proposal would prevent suffering if re-conversion is slowed up.

This proposal, however, met opposition on the argument that states have seven billion dollars in the unemployment insurance funds.

Some finance committee members said they were puzzled by information they are receiving. They said that in states where thousands have applied for unemployment compensation there are thousands of unfilled job opportunities.

A possibility was seen that the committee might order a quick survey of the unemployment situation before acting on the bill.

Deaths of the Day

William Ehle.
William Ehle, aged 96 years, died at his residence in Mt. Jackson, North Beaver township, Saturday night at 11:15 o'clock following an illness of three months' duration.

Mr. Ehle, son of the late John and Rosanna Grieger Ehle, was born September 9, 1849, in North Beaver township. He spent his entire life in this community and was a retired farmer.

Survivors include his widow, Mrs. Margaret Gibson Ehle; the following children: Mrs. C. W. McClelland and Henry E. Ehle, both of North Beaver township; Miss Florence Ehle, at home, a teacher in the Ellwood City public schools, and a granddaughter, Capt. Francis E. McClelland, U. S. M. C., a nurse now home on leave of absence.

Funeral services will be conducted Tuesday afternoon at 2:30 o'clock from the Westfield Presbyterian church, with Rev. George N. Neill, of Tarentum, formerly of the Bethel U. P. church, and Rev. James A. Crawford, of Mt. Jackson U. P. church, officiating.

Interment will take place in the cemetery at Petersburg, O. Friends may call at the late residence in Mt. Jackson at any time.

Mrs. Frank L. McGill.
Mrs. Mary Wilcox Magill, aged 71 years, wife of Frank L. Magill, of 107 South Ray street, died at her residence Sunday morning at 5:15 o'clock following an illness of two weeks.

Mrs. Magill, daughter of the late Abraham and Rebecca Snyder Wilcox, was born December 30, 1873, in Harrisville, Pa. She had lived for the past 25 years in New Castle, where she was a member of the First Christian church.

In addition to her husband, she leaves one son, Arnold W. McConnell, of Hollidays Cove, W. Va., and two granddaughters, Cpl. Mary Edna McConnell, U.S.M.C., Women's Reserve, and Fireman I-C Paul W. McConnell, U. S. Navy.

The body has been removed to the Cunningham funeral home, East Washington and Chestnut streets, where funeral services will be conducted Tuesday afternoon at 2 o'clock, with Dr. G. S. Bennett, of the First Christian church, this city, and Rev. A. R. Mansberger of the Hollidays Cove Methodist church, officiating.

GIRL SLAYER TO BE TAKEN BACK TO CRIME SCENE

(Continued from Page One)

Dreyer "four or five times" with his fists when she resisted his advances, "knocking her unconscious."

He said became frightened, put her in his car and drove around in an attempt to revive her. Then he said he dumped her body in a clump of bushes and "took the girl's black belt and put it around her neck real tight."

Hauser, who was brought to this country from Germany when he was a year old, was arrested Friday on the Frankfort Springs farm of Leonard Hobbs in Beaver county. Hobbs recognized him from newspaper descriptions and called state police at Imperial.

The six-foot, 190-pound youth confessed first to Cpl. Charles H. Dewitt in the state police barracks at Belle Vernon and repeated it later to Cotton. He signed the confession Saturday in the county jail at Uniontown.

Saturday Picnic Is Enjoyed By 200 Highway Employees

Large Group Has Afternoon Games, Contests, And Picnic Dinner At Cascade

Two hundred persons, employees of the Highway department and their families attended a picnic in Cascade Park Saturday afternoon, with a full program followed by a corn and wiener roast.

Under the leadership of Miss Jane Novarra, the activities included games for all groups, and prizes for the winners. Winners of the various contests and games are as follows:

Grand door prize, Edwin C. Hoffmaster; bean guessing contest, Henry Broadbent; 50-yard dash for girls up to eight years of age, Jackie Lindsley; dash for boys up to eight, Carl Pennell; dash for girls from eight to 12, Jeanie Behm; dash for boys from eight to 12, Arthur McDevitt; dash for girls over 12, Selma St. Clair; dash for boys over 12, Sam Bonifilio.

Cracker whistling contest, Carl St. Clair; children's three-legged race, Olive Mae Bunnell and Carl St. Clair; peanut race, Del Shifflet; adults' three-legged race, Isabelle Kuhn and Carl C. Kuhn; men's house-calling contest, Steve McBride; women's hog calling contest, Louise Page; nail driving contest, Isabelle Kuhn; adults' clothes pin contest, Bernice Magee; and children's clothes pin contest, Alvin Fennell.

A singing contest for both boys and girls was won by young Miss Jackie Lindsley. There was even a prize for the largest family present, that of Carl L. Kuhn, whose wife and seven children were all at the picnic.

Those responsible for arranging for and preparing the picnic dinner were Homer Brooks, Dave Curtis, and William Houck, with foreman, caterers, and their wives all assisting the general committee.

NATION'S CAPITAL READY TO GREET CORREGIDOR HERO

(Continued from Page One)

ed his first ovation from a grateful and humble nation in San Francisco.

Awaiting his arrival in Washington were tens of thousands of government workers as well as Mrs. Wainwright, President Truman and Gen. George C. Marshall, army chief of staff.

Mrs. Wainwright arrived in Washington last night from her family home at Skaneateles, N. Y. to meet her husband for the first time in more than four years.

"Seems Incredible"
"Now, if I only don't wake up and find this all a dream," she said, "it seems almost incredible that after more than four years it is only a matter of hours until I see Skippy."

Following his arrival at the airport, Wainwright will motor through crowded streets to the Pentagon Building where he will report on his imprisonment to Secretary of War Simon.

He will receive the keys of the city at special ceremonies at the Washington Monument and then go to Capitol Hill. He will then go to the White House to meet Mr. Truman.

Fellow Prisoners With Him
Accompanying "Skippy" Wainwright when he arrived in the United States were three officers and a veteran sergeant who were his fellow prisoners during three years, three months and 10 days in Japanese concentration camps.

Wainwright was liberated on Aug. 16 when parachutists dropped into a tiny prisoner of war camp at Shian, 100 miles northwest of Mukden.

On his long trek back to the states, Wainwright made several stops, but he declined to discuss reports of mistreatment at the hands of the Japanese during his long imprisonment.

Wainwright was forced into one of the most tragic and bitter roles ever enacted by an American general when he finally surrendered Corregidor to the Japanese on May 6, 1942.

Wainwright knew when he took over that the Philippines were doomed, but he fought a brilliant last-ditch stand which tied up thousands of Japanese troops at a time when the enemy could have used them to good advantage elsewhere.

Five Injured In Three Accidents

Two Of Five Hurt On Butler And New Wilmington Highways

Five persons were injured in three accidents Saturday according to reports made to state police. Several of the injured were attended in Jameson Memorial hospital.

At 11 a. m., Saturday Daniel Aniel, operator of a Keystone Company bread truck was forced off the Ellwood City highway, three miles from this city, he reported and when he "pulled" the truck back on the cement the truck skidded, clipped a pole and overturned. He received injuries of the chest.

Plunges Down Embankment
H. W. Blitzer, Akron, accompanied by his wife, was driving at 12:10 p. m. Saturday south on the Rose Point hill, Butler road and his car skidded when he applied the brake. The car skidded across the highway, plunged through several guard rails, then down a 20-foot embankment. His wife, Susan, 39, was admitted to the Jameson Memorial hospital for injuries to her head. He also received cuts about the head.

Blames Steering Apparatus
H. M. Pyle, Limestone, N. Y., accompanied by his brother William Bradford, Pa., was driving on the New Wilmington road, six miles from this city, when something went wrong with the steering gear. H. M. Pyle stated. The car left the road, went into a ditch, came back again and then crossed the highway and ran into an embankment. H. M. Pyle was taken to the Jameson Memorial hospital for a severe elbow laceration. William Pyle sustained a laceration of his left ear, according to the state police report.

All of the motor vehicles in the three accidents were damaged considerably.

SEPTEMBER ASSEMBLY FOR ST. MARY'S GROUP

A large gathering was present at the early fall calendar for St. Mary's Educational Association, conducted yesterday afternoon at 2:30 o'clock in the social rooms of the church. William A. Nelson, president, was in charge.

Rev. Francis McCarter, spiritual advisor, opened with the invocation, after which committee reports were contributed by various chairmen. A special function is slated for September 20, details being rounded out at this time. A tour of the school showing improvements during the past summer vacation period, was a highlight. Artistic paintings in the school rooms, a work of the presiding Sisters, were of special interest. This contribution further endorsed the purpose of the organization—that of upholding and promoting interest in the welfare of the children of the parish.

Benediction was offered by Rev. Fr. McCarter. Next meeting will be October 14, at the same place.

WASHINGTON CALLING

by MARQUIS CHILDS

Huge Industrial Expansion In Sight

WASHINGTON, Sept. 10.—What with President Truman's message and the conversion report, we've been hearing a great deal about the plans of government for the peace that is now a reality.

Because it is hard to put the whole picture together, we have heard less about the plans of business on which, essentially, the prosperity of the country must depend. Government can never be more than a supplement at best.

Huge Expansion Seen

A tremendous industrial expansion is in sight. Almost every business man you talk with has his own reconversion plans, and almost invariably they call for new plants and new products.

Recently, I happened to talk with two business men who have existing plans for the immediate future. Both men were a long way from the traditional figure we have come to label big business. They were preparing to meet the changing circumstances of a changing world.

One was Robert R. Young, who in association with Olin & Co., is trying to buy the Pullman company. The other man was Frank W. Pierce, a director of Standard Oil of New Jersey.

Young is a concentrated charge of dynamite out of Texas. In the course of acquiring four railroads during the past decade, he has upset a lot of conventional notions about railroad management and even more important, about finance. More than any other single individual, Young has helped to break through the financial toll bridge that was controlled almost exclusively by one set of interests in New York.

Now, with his partners, he has met the price asked by the Pullman company, which was controlled by anti-trust action to sell other the business of manufacturing Pullman cars or the business of selling Pullman service. Pullman chose to dispose of the latter.

In a petition filed with a Philadelphia court, Young and his associates say they will replace present heavyweight Pullman cars with lightweight, streamlined equipment. They are prepared to place orders for \$500,000,000 in new cars as soon as the court approves their bid.

New Railroad Business

Young sees it in the railroads. A far from being defeated in this matter of passenger business by the automobile and the airplane, can develop great new, unexplored fields of travel. He has worked out many ingenious plans in this direction, but these must await final disposition of the Pullman case. The Pullman company is at this point seeking to delay action, although the separation decree was handed down many months ago.

Frank Pierce of Standard Oil is in charge of that company's employee relations. Under his direction, the company has worked out a pension and security plan far in advance of what government has done. Recently, Pierce was invited to Washington to explain the plan to the Civil Service Commission.

Part of the Pierce plan is to encourage employees to acquire stock in the company. As Pierce puts it, "You're got to give people a stake in our system if you're going to hold their loyalty."

The stock ownership idea, made difficult by SEC regulations, is only a minor phase of standard's third plan. During the 10 years that a third fund has been in operation, more than \$120,000,000 has been paid in, of which the company contributed \$61,838,143.

Not alone because of what they are doing but because they are proof of the vitality of our system. Messrs. Young and Pierce seem to me to be hopeful signs of the times. If men with imagination and ideas can get a hearing and an opportunity, then the American system is still sound.

ICE CREAM

Milk is our best all around food. It may be used in a great variety of ways. Some people like to drink it, others like to eat it. Some people like to eat it in the form of cheese, even Limburger. It seems that most everyone likes ice cream.

It may be made out of whole milk or skim milk or cream. It may be flavored to suit the taste.

It may be combined with fruit or nuts. It makes a pretty good pep up between meals.

When made from clean pasteurized milk it is a delightful nourishing food.

News that one munition factory is turning out washing machines has the man at the next desk worried. Even now, he mopes, when his pants are returned from the laundry they look like they have been through a battle.

The Japs, according to a news item from Tokyo, are not doing matches as coins. This is the kind of money that naturally burns a hole in the pocket of even a miser.

Ceylon reports rubber production soon to be resumed. This news is both tiresome and highly cheerful.

SHORT-SHORT EPIGRAPH
The young reporter had been lectured about padding his stories, getting in too many uninteresting details. So when a fatal accident took place in the highest building in town, he reported it this way:

Bill Walker, the janitor, looked up the elevator shaft in the Jones building this morning to see if the elevator was running. It was. Age 32. Funeral Tuesday morning 11:30.

Those who expect nothing can depend upon getting it.

Good luck depends a good deal on how hard you work for it.

Seeking to impress her class "that there was nothing a man could not do if he put his mind to it," a teacher was interrupted by a pupil who begged to differ with her.

"Well," said the teacher, "tell me and the class what it is."

"You try to light a match on a piece of soap," answered the pupil.

The judge was hearing a divorce case.

"Now you say your husband cursed you," prompted the lawyer. "Just repeat the exact words he used."

"I'd rather not," said the witness. "They are not the kind of words a lady would tell a gentleman."

The lawyer was stumped. Then he brightened.

"Just whisper them to the judge, then," he said.

CHECK
The twilight out of town on his wife's birthday, sent her a check for a million kisses as a present.

The wife, a little annoyed at his thrift, sent back a postcard.

"Dear Jim: Thanks for the perfectly lovely birthday check. The milkman cashed it this morning."

The World and the Mud Puddles

MAN'S SHORTCOMINGS

An eminent English physicist and philosopher who has held an important but obscure place in the conduct of the global war, commented somewhat despairingly a few days ago on the possibilities of the atomic bomb.

The physicist in him impelled him to consider that unrestrained or malevolent use of this new destructive agent conceivably could wreck not only civilization as we know it, but wipe out the human race itself. The philosopher side of him, reflecting long and profoundly, wondered if such an extermination might or might not be an unmitigated calamity.

The race, he seemed to feel, hadn't done a great deal to deserve perpetuation.

James Stephens, the Irish poet, recording the somewhat inebriated soliloquy of Thomas and Bulle in an Irish pub, tells of the Almighty's weariness and despondency over this mundane sphere and the momentary threat of its destruction.

"From the start," bemoans the Omnipotent, "that star went always wrong." The world we know was a bitter disappointment to its Creator.

The same idea is poignantly expressed in the great Negro drama, "The Green Pastures," where the God of the African folk is seen weeping at the waywardness of the earth inhabited by man, in spite of all the patience and generosity of its maker.

From the viewpoint of a hoped-for creator, looking on from the rim of the universe, it hasn't been a very successful world or a very gratifying civilization. It may be that even in a fair-minded human court of law, branding his follies and shortcomings against the limited possibilities this misguided old earth and its insatiably blundering people would be condemned to extinction.

A lot of our opportunities we have failed miserably to appreciate or utilize. A lot of them we have abused or perverted. The most charitable will have to confess that we have fallen pathetically short of our potential destiny.

Yet there is some hope, perhaps that a judge to whom a thousand years are as but a day might find in us after all some extenuation and some hope. Measured by eternity, we are still young and formative and irresponsible. We have come slowly and painfully but we have come a long way from the primordial slime and the chalk pits. Sometimes in our climbing we have slid back two steps to the one we have ascended, but age or agelessness, century by century, generation by generation, we somehow have shuffled on.

Our bodies and our brains, let us confess, have gone ahead of our spirits. We have turned our beneficent gifts to destruction and failed to leech the inner brute, even while harnessing the forces of nature, and overcoming the bestial and microscopic foes of human existence. In all the centuries behind we have relied on brute force as our only armor of justice between nations. We have reverted periodically to the law of the jungle. We have not yet achieved our far-off dreams of world equity and freedom. We have failed miserably to apprehend the sanctity of human life in the mass.

But we have gained. Science has been beneficent as well as malevolent. We have conquered the enemies of human health and prolonged the human span. We have ferreted out the secrets of nature and turned them to man's material advantage. We have unlearned learning. We have won liberty of voice and conscience for the millions. We have raised expectations available to the multitudes. Our faces are still forward and new dreams lure us on.

Strict judgment, indeed, may ponder whether we are worth saving. Other and better worlds may have been condemned long before our star was born. But hope and faith and an ineradicable spark of divinity have brought us thus far. Let us hope they will carry on.

Fewer Career Women Found In Washington
Many Were Influenced By Mrs. Roosevelt
Old Age Recipe Given By Senator Capper

BY HELEN KESSARY
(Central Press Columnist)

WASHINGTON, Sept. 10.—I recently did a column about how the number of influential women in Washington is steadily decreasing. Since then this tendency has become more and more apparent.

Women just don't seem so interested in their own careers anymore. So, I discussed this change in the status of Washington women with a group of newspaper women.

It's because Mrs. Roosevelt is no longer in the White House, we decided almost unanimously. "She was the focus of opportunity for ambitious career-minded women. Everybody knows she talked her husband into making Frances Perkins vice secretary of labor. She was responsible for the selection of Mollie Dewson, energetic head of Democratic women. Mrs. Roosevelt was the channel through which politically conscious women worked."

But Mrs. Roosevelt would have had almost none of her influence had she not been the wife of the president of the United States. "Spoken by a dissenter."

Eleanor Used Influence
Agreed. But she undoubtedly used every ounce of influence that the position gave her. No woman in or out of captivity was ever as clever at publicity as she was. Charlie Michelson, Democratic publicity chief, said she was the smartest politician in the entire country.

Mrs. Roosevelt is not one-millionth part as influential now as she was when she sat in the White House and got her ideas into working order by the medium of the press conference. The dissenter was arguing again. She promptly found herself alone. The rest of us jumped at her as one woman with.

You are proving the original point. There aren't many influential women in Washington today. Not even Mrs. Roosevelt with her prestige. You surely recall the names of the club women who used to be such front line crusaders. Indeed, you hear of almost no women except those who are members of the House of Representatives.

Some of my friends in the higher bracket manufacturing group say we Yankees aren't so much interested in world trade as we think we are. We believe our stuff is so good we try to make other countries buy to suit it. In the past England, Germany and Japan manufactured to please their foreign customers.

But not we. We said, "What we have is better for you than what you want. So you take that. Do you hear?"

We need a new guide to grabbing world markets.

We should find out what the foreign purchaser wants to buy. And (Continued on Page Five)

LOOKING AT LIFE

BY ERICH BRANDEIS

There isn't anything quite so typically American as a small-town newspaper.

This is Monday afternoon, and I just got through reading the New York Sunday papers. They are wonderful, of course, with their pounds and pounds of news and articles and charts and maps, but you sort of get groggy trying to digest all that impersonal, important and involved stuff.

And then, in the mail, came a copy of the Renovo, Pa. Daily Record, sent to me by a friend who wanted me to see a little item about him.

I had never heard of Renovo, Pa., so I looked it up on the map. It's on the west bank of the Susquehanna River and the nearest city, Williamsport, is about a hundred miles away. Renovo has a population of about 3500 and the Record has a circulation of 1300 copies. It is owned and run by a Mrs. John U. Shaffer.

Four pages—that's all, but all of it is real America.

On the front page there are such items as "Mrs. Roscoe Weis and children are spending the week at their cabin in Kettle Creek" and "A birthday party was held Sunday at the home of Mr. and Mrs. Joe Martins for their granddaughter, Jane Marie Button, who was one year old."

Also on Page one you are informed that the Emerald Hose Company carnival will be held this evening. The carnival will be more fun than any you have ever had, and also that you must wash the least soiled things first and use same soap for really dirty items. The headline is "Stretch Soap."

World events have just a few lines, but news about the Renovo Buddies, except under a column, "The classified column announces that a second cousin who wanted to be a New American Hotel and the Young Man Bros. on Erie Avenue repair watches and clocks but are now only in the evenings."

Fisher Program Has Wide Appeal

Local Pianist Will Present Humorous Russian Pieces, Along With Chopin And Debussy

Music lovers of New Castle are keenly anticipating the first important musical event of the season Thursday evening when Miss Adrian Fisher, talented local pianist presents a recital under the sponsorship of the Lions Club.

New York critics have especially praised the animation and vigor of Miss Fisher's playing and her ability to overcome mechanical difficulties. Her program here will include a varied repertoire of piano selections, which will display not only her technique, but also the beautiful melody and tone which only the piano can produce. Beginning with the well known Mozart Sonata in D Major, the first part of her program will include also several Chopin selections which were adapted for use in the musical play of Chopin's life, "A Song to Remember," including the popular "Polonaise."

The second part of the program will open with several numbers by Debussy, typical of his impressionistic style. Following several light humorous selections by the contemporary Russian composer, Tchaikovsky, the program will conclude with the melodic "Mephisto Waltz" of Franz Liszt.

The concert will be at the Cathedral Auditorium next Thursday and is being presented by the Lions Club for the benefit of the building fund of the Y. M. C. A. Colored Center. Tickets are on sale at the various music stores and from any member of the Lions Club.

FEWER YOUNGSTERS IN NATION TODAY

STATE COLLEGE, Pa., Sept. 10.—A population study of age groups conducted by Dr. Walter Coutu, associate professor of sociology at the Pennsylvania State College, shows that persons under 20 years of age are growing fewer in numbers while the age group from 45 to 65 and over is steadily increasing in numbers.

The average house wiring circuit can carry a load of only 1650 watts.

Pfc. James Fair Gets Silver Star

Silver Star-Citation Awarded To Local Service Man In Germany February 28 1945

Mr. and Mrs. Anthony Fair, of 1016 Agnew street, received today the Silver Star medal and citation awarded to their son, Pfc. James L. Fair, aged 20 years, in Germany on February 28, 1945.

Pfc. Fair is now stationed on the German-Czech border. He has been in the service for two and a half years, and overseas for over a year. The citation reads: "While his company began to organize defense position following a successful attack Pfc. Fair observed 25 enemy troops preparing for a counter-attack. Unhappily he engaged them single handed with his machine gun although they returned the withering fire. He succeeded in killing eight, and wounded several more and completed in shattering the intense attack."

The praise and worthy courage and initiative displayed by Pfc. Fair reflects high credit upon himself and the military service.

SIX FACTORS LISTED FOR WEEVIL CONTROL

For the control of insects which may infest and damage grain in Lawrence County mows and granaries, six practices which have proved effective in combating these pests should be used.

1. Cleaning of barns and granaries.
2. Threshing of bins and granaries.
3. Early threshing.
4. Keeping grain out of the mows.
5. Proper storage practice.
6. Use of insecticides.

In the cleaning of barns, it is important to get rid of scattered grains and dust in which the insects breed during the period when stored grain is not available to them. All old grain should be removed from empty bins before the new crop is stored. The scattered grains and dirt should be removed from cracks and corners of all bins.

This should be followed by spraying the empty bins and granaries with a contact spray which will not leave an odor or otherwise contaminate the grain, but destroy any insects present. The following spray formula is effective for this purpose:

Dormant-tree spray oil 1 gallon
Ive. 3 ounces; water 9 gallons.

Cooked A Fine Dinner; Then Throw It To Dog

One lady recently stated that she used to throw her own dinner to the dog most of the time. It made her sick just to look at anything to eat. She was swollen with gas, full of blood, had headaches, felt worn out and was badly constipated. Finally she got ERB-HELP and says she now eats everything in sight and digests it perfectly. Bowels are regular and normal. She is enjoying life once more and feels like "some other woman" since taking this New Compound.

ERB-HELP contains 12 Great Herbs; they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get ERB-HELP. Sold by All Drug Stores here in New Castle.

MARCHIONE-KLABON CHURCH WEDDING

Before an altar embanked with palms, ferns, and flowers, at St. Lucy's church, Miss Marian Marchione, daughter of Mr. and Mrs. Querino Sinibaldi of 1 North Wayne street, became the bride of John Klabon, son of Mr. and Mrs. William Klabon, R. D. 7, Saturday morning at 9:30, witnessed by a large gathering of friends and relatives.

Rev. Fr. Sebastian Ippolito, the pastor, with High Mass double ring ceremony, officiated. The bride was given in marriage by her grandfather, Anthony Conti.

The bride looked lovely in a white summer satin dress with long train. Her fingertip veil of tulle fell from a pearl crown, and she wore for her jewelry, a golden cross, a gift from the groom. Her arm bouquet consisted of white lilies centered with an orchid.

Maid of honor was Miss Helen Christine, who was attired in an aqua dress, with blue accessories, and her arm bouquet was of yellow tea roses. Bridesmaids were Misses Mary Marchione, Gertrude Melchiorre, Louise Conti, Virginia Papa, Jennie Klabon, and Louise Dattilo, who wore dresses of pink, white and blue, and carried bouquets of deep pink roses.

Best man was Private Domenick Bovo, home on furlough. Ushers were Frank Fida, Philip Bovo, Bob Denny, Louise Ross, Johnnie Masser, and Anthony Marino.

Following the ceremony, breakfast was served at the home of the bride's parents. At seven o'clock a wedding dinner was served to the immediate family at Columbus Hall, after which a reception was held by the wedding party at the hall, accompanied by a local orchestra.

The bride has been employed at the Castle Show Case plant, and the groom is employed at the Standard Steel Spring Company plant.

Out of town guests were Mr. and Mrs. Jack Murdock, of McKeesport, and Mrs. John Marchione and family, and Mrs. Victor Trombetta and family of Aliquippa, Mr. and Mrs. Thomas Conti of Ellwood City, Mrs. Rose Ross and family, Mr. and Mrs. Joe Conti, and a number of cousins from Sharon.

The new Mr. and Mrs. Klabon left for a wedding trip to Washington, D. C. and New York City. Upon their return the couple will reside temporarily at the home of the bride's parents.

GILLESST-DONOFRIO WEDDING SATURDAY

An impressive early fall wedding was solemnized in St. Vitus church, Saturday morning, uniting in marriage, Miss Nettie Gillesst, daughter of Mr. and Mrs. Fred Gillesst, Pearson street, and Pfc. John Donofrio, Jr., son of Mr. and Mrs. John Donofrio, Sr., of Hillsville.

In the presence of friends and relatives the young couple exchanged vows at 8:30 o'clock, with Rev. Fr. Albert M. Intese, officiating and using the double ring ceremony. Flowers and ferns were used to decorate the altar.

The bride was given in marriage by her brother, Lawrence Gillesst. For her wedding the bride was lovely in a white moon taffeta gown, with sweetheart neckline, and leg o' mutton sleeves. Her veil was caught in a can of seed pearls and rhinestones, and she carried a bouquet of lilies and streamers. A gold cross from the bridegroom was her only jewelry.

Cpl. Angelina DeVitto, of Fletcher hospital, Cambridge, O., was maid of honor and wore a pink taffeta gown with sheer net skirt. Her blue shoulder veil was caught with flowers, and she carried yellow roses.

Cpl. Frank Galaria served as best man.

After the ceremony a wedding breakfast was served at the Union Calabro club, where the wedding dinner and supper was also served. In the evening a reception was held for friends and relatives. Music for the occasion was provided by local musicians.

Pfc. and Mrs. Donofrio departed on a wedding trip to Washington, D. C.

Out-of-town guests were Mrs. Victoria Gilotti and family, of Butler, Pa.

Three Miners Killed By Gas

POITTSVILLE, Pa., Sept. 10.—(INS)—The deaths of three miners in a coal hole near Pottsville were blamed today on carbon monoxide generated in the shaft by a gasoline driven engine used to pump water from the pit.

The victims were Jerome Valera, 34, of Frackville; Dominic Genovese, 33, and Charles DiAngelo, 25, both of Pottsville.

Valera, accompanied by his nephew, nine-year-old Dominic "Santagelo" of Brooklyn, N. Y., went into the shaft Saturday evening to refuel the engine and was overcome by the deadly fumes. The boy stayed on the surface. When Valera failed to reappear, the youth summoned Genovese and DiAngelo, who descended to investigate Valera's disappearance and were asphyxiated.

Dominic Genovese Jr., 14, who had been with Genovese and DiAngelo, summoned state police and State Mine Inspector Timothy Ryan of Pottsville. Ryan notified the Philadelphia and Reading Coal and Iron company, which dispatched rescue squads to recover the bodies. Squad members said the times had claimed the miners lives within minutes after entering the shaft.

Jap Vessels Are Being Boarded

American Naval Officers Investigate All Vessels Of More Than 100 Tons

ABOARD USS PANAMINT, Omata Harbor, Sept. 10.—(INS)—American naval officers today began boarding all Jap vessels of more than 100 tons as the first step in the occupation of northern Honshu and Hokkaido.

This action followed yesterday's formal surrender of the Omatao naval district in a ceremony aboard the Panamint, flagship of Vice Adm. Frank Jack Fletcher's North Pacific Fleet.

Jap military officials and civil police from Aomori prefecture were instructed to furnish maps today locating prisoner of war camps and detail the numbers and names of internees in each.

When they demurred to Fletcher's demand to produce lists of weapons, ships and other impediments of war within 12 hours, they were ordered "a few hours" additional.

Gen. Hoshino Toshimoto, commander of Aomori defense forces, informed that naval occupation of an "emergency" nature, pending arrival of Allied troops.

had expressed doubt as to whether he would capitulate to the U. S. Army.

few Bomb Said To Dwarf Atomic In Destruction

LONDON, Sept. 10.—(INS)—The London Evening Star said today that the council of foreign ministers will be asked for information concerning a report that science has devised a new bomb of plutonium which is 100 times more powerful than the uranium atomic bomb.

The information, according to the newspaper, will be requested at the same time that Russia, France and China ask the United States and Britain for permission to share the secrets of the atomic bomb.

Official quarters said it was very unlikely such matters as the atomic bomb and the treatment of war criminals will be taken up at the Big Five meeting.

They pointed out that the agenda of the foreign ministers council already was overcrowded with more pressing problems.

It was believed control of the atomic bomb will be left for an eventual peace conference while the treatment of Japanese war criminals will be reserved for special international discussions.

The volume of underground water in the earth has been estimated at nearly one-third the amount in the sea.

Kurusu Denies He Was Decoy

Diplomat In Washington When Pearl Harbor Attack Occurred Asserts Innocence

TOKYO, Sept. 10.—(INS)—Saburo Kurusu denied today that he had been sent to Washington on a peace mission in 1941 as a decoy for Japan's sneak attack on Pearl Harbor.

Kurusu, with his American wife, the former Alice Little of New York, is living in meager circumstances in a small house outside Tokyo. He grows his own vegetables and chops his own firewood.

He said his presence in Washington when bombs fell on Pearl Harbor "has been a dagger in my heart."

"Cordell Hall charged me with lying and treachery," Kurusu said, "but I swear when I left Tokyo I knew nothing of Japan's war-like intentions."

Admiral Nomura, who acted with him in Washington, also was working for peace, Kurusu said, adding that former Japanese Premier Hi-

deki Tojo "was hoping that I would be successful on my mission." He said he never has spoken to Tojo since his return from Washington and has not seen the former premier for months.

B-29 Crewmen Worse Treated

By PAT ROBINSON
(U.S. Staff Correspondent)

MANILA, Sept. 10.—Liberated American war prisoners reported today in Manila that B-29 crewmen fared worse than their captives in Jap hands.

The B-29 airmen received no medical supplies whatsoever, regardless of their condition, and were given only half the meager ration which other American prisoners were supposed to exist on.

The liberators said that the Japs always placed the Superfort crewmen in the charge of guards whose captives had been killed and whose homes had been destroyed in B-29 raids.

The Jap guards were given a free hand with the prisoners.

Moreover, the B-29 airmen were usually picked up by Jap civilians who, if anything, were crueler than the Jap soldiers. The prisoners were not even permitted baths.

The condition of some of the liberators—with ribs protruding and emaciated arms and legs—shocked even war-hardened newsmen. Many of the repatriated B-29 airmen are suffering from beri-beri, dysentery, anemia, tuberculosis and other skin diseases.

Ninety Per Cent Of Pennsy Shop Workers Cast Vote On Saturday

Approximately 90 per cent of the 500 local shop workers of the Pennsylvania railroad voted in the bargaining agent election held at the shop on Cherry street on Saturday, according to company officials.

The balloting was conducted by the National Railway Mediation board as part of a system-wide election, and the ballots will be counted in Washington by the board. Results will be delayed about a month because ballots sent to employees now in service must arrive and be counted.

Eleven Soldiers From Ward Make Supreme Sacrifice

With the boys in the armed forces from the ward beginning to come home after being honorably discharged, we counted the names placed on the board of the honor roll at the corner of West Madison avenue and North Liberty street.

There are 457 names on the roll of whom 11 have made the supreme sacrifice; several have been wounded, reported missing and prisoners of war.

Erie Conference Exceeds Crusade For Christ Quota

Conference Exceeds Quota By \$67,835; Two Local Men Admitted To Conference

At the Erie Conference of the Methodist church held during the past week at Allegheny College, Meadville, Pa., E. R. Myers, Director of the Crusade for Christ, announced that \$354,480 had been subscribed in the Crusade, which was \$67,835 more than the quota set for the Conference. Some \$265,899 of the amount has been paid to date.

Next phase of the Crusade, that of Evangelism, was launched at the session of Conference on Friday. Plans call for district meetings in October, sub-district meetings in November, and local church planning in December for an intensive campaign of personal evangelism between the first of the year and Easter.

There is also to be a continued emphasis on attendance at the church school sessions, and on the work with youth.

Conference Budget
The conference adopted a budget of \$234,389 for Administration and Benevolence within the conference. One of the newer projects was the employment of a full time pastor to establish the church in suburban Lakewood in Erie.

District missionaries for rural work are also to be employed to strengthen the work of the country churches. Two men have been named so far, Carl Reppert of Bingham, N. Y., for the Jamestown district and Arthur Kirk of Townville, for the Meadville district.

Men Admitted
Five young men were admitted to the conference on trial at the session on Friday. They are, James Clark Hares of New Castle, Virgil E. Maybray of Castlewood, New Castle, Leroy A. Heilbrun of Pervysburg, N. Y., and Willard L. Davison of Sharpville and Everett F. Spring Jr., of Erie.

Three were admitted into full connection in the conference, R. Blaine Dietrick of Cherry Creek, N. Y., Paul J. Hogg, of Pleasantville, and Howard L. Smith of Meadville.

Ordination Services
Ordination services on Sunday afternoon were impressive. James O. Hares, Charles A. Platt, and Willard L. Davison were ordained as Deacons. Willard Davison is now at Union Theological Seminary in New York awaiting assignment as a Navy Chaplain, and he appeared in his Naval uniform in contrast to the ministerial gowns of the other ordinands. Four young men were given the elders orders, which are the final step in the orders in the Methodist church, R. Blaine Dietrick, Paul J. Hogg, Robert E. Johnson and Howard L. Smith.

Highland W. C. T. U.

Members of Highland W. C. T. U. were entertained Thursday afternoon, September 6, at the home of Mrs. Archie Allen, Boyles avenue. Mrs. P. J. Fox, president, opened the meeting with prayer.

Miss Grace McNulty gave a very inspiring devotional talk based on the experiences of Sgt. John Beck taken from the book, "Eight Men on a Raft". For scripture she read from the first chapter of Daniel, verses 1-20, dealing with Daniel's stand for temperance.

Mrs. Fox read a report of the past year's work, gratifying both in work done and new members acquired.

Program of the afternoon was in charge of Mrs. Ray Cline, aided by Mrs. Eva Campbell and Mrs. Roy Graham.

Mrs. Campbell gave a talk on the subject, "What the W. C. T. U. can do to promote physical fitness." Mrs. Roy Graham discussed "Alcoholism, a Disease."

Mrs. Cline then spoke on "The Nation's Health and What of the Hazards?" and reviewed material from the Allied Youth Movement, a rapidly growing movement in which young people of the nation are making their own fight against the drink evil.

Dainty refreshments were served by the hostess following the benediction.

Early Release Of 750,000 In Navy Is Now Provided

Revised Discharge Formula Is Announced By Navy Department, Effective September 15

WASHINGTON, Sept. 10.—(INS)—Approximately 750,000 navy men and women were slated today for early release under a revised discharge formula providing credits for overseas service.

The new system, effective Sept. 15, entitles all navy personnel to one-fourth of a point for each month of active service outside the continental United States since Sept. 1, 1939.

Under the formula, an estimated 750,000 naval personnel will be immediately eligible for discharge. The original point system affected only 327,000 navy men and women.

New Plan

The new plan which also sets critical discharge scores for medical, hospital and nurse corps was announced along with these developments.

1. The army set February as the "target date" for the return of approximately two million American soldiers from Europe and estimated that more than one million 750 thousand men will be brought home from the Pacific by next June.

2. The navy reduced its draft calls from September's 10,000 to 5,000 for October and November.

3. Rep. Rankin (D. Miss., chairman of the house veterans committee, declared congress would take steps to expedite the discharge of men who are needed at home.

About 1,100 doctors, 20,000 pharmacists, 9,000 hospital corpsmen and 500 nurses were expected to be released by the new critical scores.

Secretary of the Navy Forrestal said that since the addition of overseas credit more than doubled the number eligible for release no reduction of critical scores was planned before Nov. 1.

He emphasized, however, that the navy's goal was to get one in every two men home within six months and reduce the fleet to its peacetime size of 500,000 by Sept. 1, 1946.

SIX ARE INJURED IN AUTO CRASH

PHILADELPHIA, Sept. 10.—(INS)—Six Bethlehem and Allentown boys and girls were injured today when their car failed to negotiate a curve in North Philadelphia and struck a utility pole.

The driver, Wilbert A. Knipe, 16, of Black Run road, Bethlehem, told police the wheels of the car stuck in some trolley tracks and caused him to lose control of the vehicle. He was taken to Chestnut Hill hospital, where 11 stitches were required to close wounds of his head and right arm.

Liberty Grange

Next meeting of Liberty grange will be booster night, on September 18.

Plans for the program are already being made.

Axis Agents Held In United States Ordered Deported

WASHINGTON, Sept. 10.—(INS)—President Truman today issued a proclamation directing the deportation of Axis agents who were sent to the United States for safekeeping early in the war.

The proclamation authorized Secretary of State James F. Byrnes to decide who are to be removed and to what country they are to be sent.

No estimate was immediately available on the numbers brought to the United States. Their detention arose from agreements reached at the Rio de Janeiro conference called immediately after Pearl Harbor.

At that time the American Republics agreed to take measures whereby Axis agents and nations would be interned in a move to halt espionage and sabotage. Because some countries did not have proper detention facilities large numbers were sent here. Some are being detained in Texas.

There has recently been some discussions on the subject. Ecuadorian Ambassador Gale Plaza Lasso is returning to Washington from Quito with instructions to discuss the matter. Ecuador wants to have returned to Ecuador those Germans and Italians who are married to Ecuadorians and are in concentration camps in the United States.

Among the Arabs, sacred trees are believed to be haunted by angels or jinn.

Lightning Strikes Three Places Here

Firemen Put Out Blazes; Washouts Occur; Utility Service Affected By Storm

Lightning during Saturday night's rain, wind and electrical storm caused fire in and outside the city, washouts and also interfered with telephonic communication and power distribution, according to reports. However, no fires were serious and utility service was normal today.

At 7:35 p. m. Saturday a bolt struck the three-story structure occupied by the Crabb and Plano families in Matilda avenue, Union township. Some damage was caused on the third floor. Firemen put out the fire.

Fisher Bros. warehouse, South Mill street, was also struck. Some plaster was knocked down but no fire resulted at 7:50 p. m. Lightning hit an aerial on the Conner garage at 917 Harrison avenue. A blaze was extinguished.

When telephonic communication was interrupted, Bell Telephone company were called into service. They worked all day Sunday. Service was normal today.

Pennsylvania Power company reported some primary lines were felled and transformers burned out. Between 11 a. m. and noon Saturday the storm caused trouble in the New Wilmington-Leesburg district and north of the Field club near this city. There was also an outage on Long avenue Saturday night and a brief interruption on the North Hill. The company called out linemen as soon as the storm broke Saturday night.

City Streets bureau attaches reported several wash-outs during the storm which also high water in the downtown section. A fire casing blocked water in a Neshauck avenue storm sewer. When removed water flowed normally.

Rifle Shooters Cause Damage

Shooting Up Telephone Cables, Highway Signs, Etc., Is Dangerous Business

Shooting up telephone cables, highway signs and electric line insulators might appear to be fun to a bunch of youngsters at the time, but the law frowns upon it, and it does carry in its train a variety of situations, none of them happy.

Judge John G. Lamoree had a couple of youngsters before him last week who decided to test their marksmanship with a .22 rifle by shooting telephone cables and a few highway signs. Result: 45 telephone subscribers in the Mount Jackson area were deprived of telephone service for several hours.

Might Have Been Important

Perhaps in that time some service man in Europe had a telephone call scheduled to his folks: a wounded soldier in a hospital five hundred miles away missed a call to his mother, some important message to a resident of the district was delayed long enough to make it useless.

Judge Lamoree was strict in his reprimand to the young men but he was humane and intelligent. Said he: "It is a practice which this court cannot condone. A shot into a highway sign might have deflected and gone into the windshield of an automobile, killing the driver. It might have, and in fact did, cripple a telephone line and in the time it was out of service, many important messages may have been delayed. The practice is one which costs the utility companies a lot of money in a year's time but it causes inconvenience to patrons which cannot be compensated by money.

The state police are looking for persons who insist upon firing rifles indiscriminately and the whole thing adds up to a headache for everybody.

Rifle practice is a fine thing under the proper circumstances. But shooting telephone cables, highway signs and electric line insulators is anything but fun. And it might even win you a session in a nice cool jail.

REPORT 31 DEAD IN WRECK

BUENOS AIRES, Sept. 10.—(INS)—The death toll in the derailment of an International Railway Line train en route to Buenos Aires from Bahia rose today to 31.

At least 41 persons were injured in the wreck, which occurred near La Quiaca, Argentina.

Peter Stavroukas lived 18 years of pleasant rural life on his dairy farm after the British seized New York in 1944. Stavroukas, who said that in preference to surrender he "would rather be carried out dead," was not allowed by his people to join battle.

Jap General Staff Abolished Says Report

SAN FRANCISCO, Sept. 10.—(INS)—Mutual Correspondent Jack Mahon reported today from Tokyo that Gen. Douglas MacArthur has issued orders abolishing the Jap general staff.

Mahon said that abolition of the general staff is the first real step in the demilitarization of Japan and pointed out that the military group is equivalent to the United States war department.

Mahon also said that Gen. MacArthur has clamped a military censorship on all Jap radio and press outlets.

For more than a year, 5,500 Black-face and 2,000 Chevrolets were lived and prospered under a terrific barrage of shells or a Northumberland artillery range in England. They yielded better wool than usual.

Church Sodality Plans Activities
For Fall Season At Regular Session

Prefect Mary Chill presided at the recent meeting of the Sodality of Our Lady of St. Vitus church, held in the church hall, and plans were announced by the social life committee chairman, Viola Tuscano, for a corn roast at Cascade Park Wednesday, Sept. 12. Marie Mocella is chairman and Helen DePolis, co-chairman.

Rev. Fr. Albert M. Inteso, spiritual director, opened with prayer and the sodality hymn "Mother beloved" was sung. The new mother superior of St. Vitus convent, Sister M. Genevieve, was introduced. Sister Genevieve was at St. Vitus from 1937 to 1940 and now she has returned as mother superior.

Eucharistic committee, Helen Grudell, announced the mass intention to be for the sodality this month. Eva Maller spoke on the use of the daily missal. Alice DeCarlo of Our Lady's committee spoke on the seven sorrows. Apostolic committee, Antoinette Call, spoke on the twelve apostles.

Catholic truth committee, Albina Chirumbolo and Helen DePolis, took part in the dialogue on the queen's work.

Publicity committee, Angeline Venditto, urged sodalists to use the bulletin board, this month the summer school of Catholic action literature being displayed. Celestine Scungio and Frances Corio, as this year's delegates, gave excellent reports of the sessions held in Chicago. They announced that Walker, publicity head, announced the St. Vitus sodality paper, "Our Lady's Voice", as the best sodality publication.

Josephine DeMase is the new choir director, and the first meeting is Friday, Sept. 14. Thelma Phillips, bowling chairman, announced first session on September 16 at two p. m.

Fr. Inteso spoke to the group about the membership drive and participation in the sodality by all members. After the closing prayer the meeting adjourned until October 11.

HERBERT AVER EVATT

Herbert Aver Evatt, Australian minister of external affairs now in London to attend the United Nations foreign ministers meeting, has been busy pressing his country's view that Japan should be treated with grave sternness.

He has filed with the United Nations war crimes commission a report of Jap cannibalism and atrocities practiced on allied troops, a document he says will "shock and dismay the feelings of every decent human being."

Australia has long held that there should be no soft peace for Nippon and Dr. Evatt is an eloquent spokesman for the dominion "down under." The representatives of the larger powers will not be able to pigeonhole his pleas easily.

Dr. Evatt was the youngest lawyer ever graduated from the University of Sydney and at 36 was the youngest judge ever appointed to the high bench, Australian equivalent to the U. S. supreme court.

He left the bench in 1940 for the political arena and a labor seat in parliament. At 51 he now is mentioned periodically as material for premier.

He was the leading Australian delegate to the United Nations conference at San Francisco and was widely credited as an influential spokesman for the smaller nation.

His hobbies are cricket and hot jazz. His wife was born in Iwo and he has picked up many American habits.

Report Youth Admits Shooting

Neighbor Is Shot Because He Allegedly Was Annoying
Youth's Aunt

PITTSBURGH, Sept. 10.—(INS)—Pittsburgh police said today Howard Sherill, 18, Pittsburgh, admitted shooting to death a neighbor, Charles E. Bundy, 47, Pittsburgh, because he was annoying his aunt. Sherill, who served four months in the Army when only 16, told police Bundy had previously threatened his mother, Mrs. Ellen Sherill, 36, and his step-grandmother, Mrs. Della Lowe, 43, as well as his aunt. Officials said Bundy had roomed at the home of Sherill's aunt, Emily Sherill. After she moved to another section of town the youth told police Bundy followed her. Mrs. Sherill and Mrs. Lowe were arrested on accessory charges. Police said members of the family hid the gun after the shooting.

Police said the ex-serviceman told them when he went to his room on the first floor of the house waiting for him with a large knife. "He made a lunge at me," the youth said. "I was trying to scare him and fired once at his feet and when he followed me out of the door and made another grab for me, I shot him."

Recruitment Of Cadet Nurses To End October 15

WASHINGTON, Sept. 10.—(INS)—President Truman has ordered the termination of recruitment for the United States Cadet Nurse Corps on October 15.

In a letter to Surgeon General Thomas Parran, Mr. Truman wrote: "I request you to terminate the recruitment of student and graduate nurses immediately and to see to it that no students are enrolled in courses under the act, which begin after October 15."

The chief executive paid a tribute to the cadet nurse corps which he said had contributed greatly to meeting the needs of the nation for nurses—military and civilian.

His instructions will permit more than 1100 nurses' training schools to adjust their educational programs and will also enable some 30,000 young women who have enrolled in the corps to begin to receive federal assistance toward their further education.

Two Are Killed In Traffic Accident

OAK GROVE, Pa., Sept. 10.—(INS)—State police today reported the deaths of James C. Richey, Jr., 42, and his wife Alice, 38, of Pittsburgh, when their car struck an empty gasoline truck jackknifed on route 111, north of Lakemore, yesterday.

Injured in the crash were Richey's two children, Larue, eight, and James III, two, and Mrs. Alice Brailer, 49, Johnstown, an aunt of Mrs. Richey.

Richey and his wife both died of fractured skulls and necks.

Mrs. Richey apparently shielded the youngest child with her body, police said, saving him from serious injury. The other child suffered slight bruises.

Hospital attacks in Lakemore reported Mrs. Brailer suffered a brain concussion and cuts and bruises of the head.

Harold S. Dickson, Greensburg operator of the truck, suffered a slight knee bruise.

Athlete's foot is not one but several diseases.

Westinghouse Office Workers Begin Strike

(BULLETIN)

WASHINGTON, Sept. 10.—(INS)—The War Labor board today ordered 8,000 striking Westinghouse office workers in 11 cities to end immediately a strike which "threatens serious interference with the nation's reconstruction efforts."

PITTSBURGH, Sept. 10.—(INS)—Salaried "white collar" workers of Westinghouse Electric corporation today began their scheduled strike after overwhelmingly rejecting the National War Labor board's plea for postponement.

More than 6,000 workers jammed a muddy East Pittsburgh field to cast their votes in a special "hand" ballot just one-half hour before the strike was to begin at 9 a. m. Workers at the Sharon, Pa. plant also voted against the delay.

To Continue Strike

Union officials reported workers at Buffalo and Baltimore also voted to continue the strike. He added that employees of the company, other plants and offices, who could not be informed in time of the new strike vote, probably walked out at the regularly scheduled time this morning.

The special ballot was called among the 12,000 employees, members of Westinghouse independent salaried unions, after a meeting between union and company officials.

The strike will affect 10 plants and four offices of the company in Pittsburgh, Cleveland, Buffalo, Baltimore, Newark, Cincinnati, Derry, Pa., and Lima, O.

The workers are demanding an incentive pay bonus equivalent to that received by hourly employees.

IN THE OPEN

We stood on the hillside and listened as the gale made music through the branches of a stand of tall old white oaks. This is perhaps the grandest music of the outdoors, truly an unfinished symphony, which goes on and on until the maestro blows himself out. The evening was in the twilight stage which made the writhing branches of the magnificent oaks look almost black against the sundown sky.

For nearly two days a brisk breeze had blown steadily across the countryside, adding to the woes of parched fields already badly hurt by continued drought and a searing sun. As we listened to the music in the trees there came a promise of relief, as distant thunder rolled an urgent undertone to the mighty overture.

The driving wind piled up a long cloud bank across the whole western horizon. Behind this curtain the sun played luminous tricks with an effect beyond description. Certain peaks in the cloud mass stood out in full beauty, while others were ringed with a golden halo of indescribable grandeur. As the sun dropped lower these lighting effects faded and were replaced by flashes of lightning, which played through and across the whole cloud bank.

Heavy Downpour

Later that night the rain came—a heavy, dashing downpour in fitting climax to the symphony in the trees, bringing full measure of relief to the farmer's plantings and refreshing Nature's own wilderness in ferns and abandoned fields. In the morning the whole countryside wore a fresh, newly washed appearance. Every wild blossom "waited" in its place, for the sun to dry its face.

I was unable to resist this sort of weather and was soon lost to sight in the deep defile of a rocky gully, following a small stream bed through an almost impenetrable hillside growth of tall Autumn plants, now mostly gone to seed. A tangling shroud of dodder lay over a great part of this growth, adding to the difficulties of chance trespassers, like myself.

Groundhog Den

As I left the roadside and plunged through the thick growth to reach the stream bed I came upon a groundhog's den, artfully established beneath a canopy of low-growing wild grape. This den was very much in use, as evidenced by the well worn entrance and the trails leading out to favorite foraging grounds. I rapped on the door with my walking stick, but got no answer.

Pale, touch-me-not, growing shoulder high, hung a flowered archedway across the narrow stream bed. Ripened fruits from earlier blooms hung everywhere within easy reach and I must have spent a full ten minutes "exploding" these miniature hand grenades. They fly open with a driving force that sometimes shoots the seeds as much as four feet away. It is this hair trigger business that has earned the plant its name.

Lavender Flower

One of the first asters was in bloom, displaying a light lavender flower amid the surrounding tangle. Leaving the stream bed as it meandered into the flats at the base of the hill, I found myself in a waist high growth of nondescript plants. A few moth-eaten butterflies were abroad, but nowhere did I see any

SAYS SECRETARY OF AGRICULTURE:

Despite Victory Used Fat Saving Must Go On!

Every woman in America should know that our country continues to face a serious fat shortage. And victory over Japan won't solve the problem immediately. We must keep on saving used fats in our kitchens!

If you have any thought that saving used fats is one of those wartime chores we can drop, now that Victory is here, please consider these facts and tell them to your neighbors.

America still needs salvaged fats. Not even at the peak of our war effort, when fats were required for mountains of shells and bombs and medicines, in addition to the ever-present need for soap, were our needs for salvaging fat greater than now. Our stocks have been drained by four long years of war, and there isn't enough on hand to meet all requirements.

Don't let "Victory psychology" blind you to this national need! If housewives stop saving fats now, the shortage will become even more critical.

Don't let a single drop of used fats go to waste! Little trimmings of fat left on the platter at the table, scraps left on plates, and even the skimmings of soups and gravies are important. It is the consistent saving of even these small amounts that counts.

Don't turn in fats that can be re-used! But some fats, such as those rendered from lamb and mutton, are not suitable for re-use. Put them immediately in the salvage can. And, with other fats, after you've got all cooking good out of them, there is always a little left. No matter how little it is, save it.

Your butcher will still give you 4c and 2 red points for every pound you turn in. Save consistently—save every drop you can—every day—until Uncle Sam says the job is done.

Fowler Pitches No-Hit Game On Return To Macks

Walks But Four Men As He Downs Brownies 1 To 0, Feller Wins From Yanks

PIRATES SPLIT TWO WITH PHILS

(International News Service Sports Writer)

NEW YORK, Sept. 10.—The feat of Dick Fowler of the Philadelphia Athletics in pitching a no-hit, no-run game against the St. Louis Browns Sunday gave the nation's baseball fans an extra thrill today because it was performed by an ex-service man.

Sterling mound work by such ex-GIs as Fowler, Dave Ferriss, Red Puffing, Bob Feller, Al Benton and countless others has demonstrated beyond the peradventure of a doubt that a hitch in the service must do the pitching wing a world of good. Fowler, a six-foot four-inch right-hander, is only 22 even though he recently was discharged from the Canadian army after two and a half years of service. He was just an ordinary pitcher for the A's back in 1942 when he won six games while losing 11. But even then the sanding, teen-age kid caused Connie Mack to meditate he would become a great pitcher. In one game he made the Browns go 16 innings to take a 1 to 0 verdict over him.

First Of 1945 Season
Yesterday Fowler squared accounts with the Browns by the same score. He walked only four men in turning in the first no-hitter of 1945.

Fowler's near-perfect effort came in the second game of a twin bill. Irv Hall's hit in the ninth off Johnny Miller drove in the lone tally. The A's also took the opener, 6 to 2, behind Buck Newsum.

Detroit's lead in the junior circuit was cut to one game. Paul Richards knocked in five runs to give the Tigers a 6 to 3 win over the Boston Red Sox in the opener. A three-run homer by Rudy York saved the Bengals from defeat in the nightcap, halted by darkness after 11 innings of play.

Indian Win Two
Meanwhile the second-place Washington Senators won twice from the Chicago White Sox, 4 to 2 and 3 to 4.

Bob Feller didn't get out of the navy soon enough to pitch Cleveland to a pennant, but he has lifted them to within one game of third place and to within half a game of the first division. Yesterday he beat another ex-service man, Spud Chandler, before 72,152 fans at Yankee stadium, in the first game of a twin bill by a 10 to 3 score. New York also lost the second game, 4 to 3, darkness halting the play after seven innings.

Cubs Keep Lead
Chicago remained 3½ games ahead of St. Louis in the National league. The Cubs plastered Boston twice, 9 to 1 and 4 to 0.

The Cards shattered the New York Giants twice, 5 to 4 and 3 to 2. Marty Marion's double broke up the opener in the eighth inning. Cincinnati downed Brooklyn twice, 6 to 3 and 6 to 4. And the Phillies, peeved by losing a close one to Pittsburgh, 4 to 3, buried the Bucs under a 14 to 3 landslide in the second game with a 24-hit attack.

Heavyweights To Battle Tonight

NEW YORK, Sept. 10.—(INS)—Madison Square Garden inaugurates its two-fight weekly program tonight with a so-called heavyweight elimination tourney.

Two rival New Jersey heavyweights, Freddie Schott of Paterson and Freddie Fiducia of Newark, tangle in the main ten-round bout. In an eight-rounder Abel Cestac of Argentina meets 250-pound Big Ben Moroz.

Bill Nunn Shoots Second Hole-In-One

Making a hole-in-one in golf to most people is a rather exciting event but to William "Bill" Nunn, local realist, who made his second hole-in-one at the Castle Hills course Sunday, it is getting to be common-place.

In 1942 Nunn, a veteran golfer made a hole-in-one on the Number 7 hole at Castle Hills, and last evening playing with Richard Perdic of Bessemer and a party of friends, Nunn took a No. 3 iron out of his bag on the short 167-yard second hole and hit his ball to the right of the green, the ball hit at the edge of the slope and started to run for the flag that nestled in the hole, and dropped in with a thud. Kay Paytas ready to tee-off on the Number 3 hole ran over and verified the shot. Keeping score for Nunn and the other players was Miss Louella Ward of Bessemer, who also witnessed the rare shot, as did Perdic and his companions. Nunn is retiring the ball that he used, saying it will never be hit again.

Nunn now joins the rarest of rare clubs, whose who have made two holes-in-one and there are not many members of this exclusive club.

Mediation Of Gas Workers Strike Is Being Resumed

CHARLESTOWN, W. Va., Sept. 10.—(INS)—Gas again reached suburban Charleston and Huntington consumers today as mediation of a strike of 1,500 United Fuel Gas Company employees resumed.

Service was restored in St. Albans and Clendenin and other suburbs Sunday after Gov. Clarence W. Meadows ordered state police to guard valves which had been turned off by the strikers.

Union officials said they would see that gas continued to flow to the consumers if the governor would recall the state police.

Governor Meadows interceded when the flow of gas to St. Albans and Clendenin was threatened. He appointed State Mediator Charles J. F. Sattler to act as arbitrator.

Harry A. Wallace, United president, said "there was some difficulty" in restoring service to the suburbs because pickets objected to police distributing handbills warning residents that service was about to resume. There was no violence.

John R. Wardwick, president of Kenova Local, CIO-Oil Workers International, said the strike was called Thursday in protest against the War Labor board's delay in acting on a 10 cents an hour wage boost requested by workers. The strike affects consumers in six surrounding states.

BANQUET COMMITTEE
The Lawrence County Baseball league banquet committee will have a meeting at 7:30 o'clock tonight at the Sporting Goods Store, with Charles "Bugs" Walther as general chairman. All managers are asked to attend the meeting.

New Castle High Tackles Butler In First Class AA Test Friday Night

New Castle High's 1945 football team will play Butler High at the stadium Friday night in the first Class AA engagement of the year. Fresh from its 26 to 0 win over Grove City in the opener, the New Castle team resumed training today at the stadium.

There were some flaring weaknesses in the New Castle defense last Friday night that will get attention this week. Bridenbaugh intimated.

Butler High opened the season Saturday at New Brighton by losing a tough one in the heat 18 to 12. Butler has a big line and a fast backfield. Bridenbaugh announced having seen Butler in action Saturday. Butler will give the locals a tough evening, judging from the 7 to 0 win New Castle tallied last year.

Deshon Defeats Hubbard Girls

Close To 2,000 Fans Watch Deshon Veterans Defeat Hubbard Girls Sunday

Before an estimated crowd of about 2,000 fans the Deshon Annex veteran softball team defeated the famous Hubbard girls team last evening 3 to 0.

Betty Jay was on the hill for the Hubbard girls and pitched a fine game, as did "Toots" Michaels of the Shenango Putters team, on the knoll for the Deshon Annex team. Dora Naples of this city played at short for the Deshon Annex and did a swell job, handling many difficult chances. Agnes "Cannonball" Rehner was slated to pitch for the Annex but injured her wrist in a game at Pittsburgh last Friday and was unable to be present. She will come here next Sunday to pitch for the championship Cecil A. A. of Pittsburgh against the Hubbard girls at Deshon field.

McLain and Adkins were the stars at bat for the Annex. The girls thoroughly enjoyed the game and will flock back next Sunday to see the two girl teams perform.

FOUR TEAMS LEFT
YOUNGSTOWN, O., Sept. 10.—(INS)—The number of teams competing in the National Baseball Federation at Youngstown was narrowed down by four today.

In the second round yesterday, Cleveland eliminated Springfield, Mass. 7 to 3. Hazel Park, Mich., eliminated Dearborn, Mich. 1 to 0. New York took care of Battle Creek, Mich. 3 to 1 and Detroit scored 17 runs to eliminate Lorain, O., 11 to 1.

GIANTS RECALL TWO
ST. LOUIS, Sept. 10.—(INS)—Outfielders Steve Filipowicz and Charley Mead today were recalled by the New York Giants from Jersey City, their International league farm club, for duty this season.

FRANKLIN & MARSHALL WINS
Franklin & Marshall looked ahead today to meeting Utrinus at Collegeville September 22 after meeting Swarthmore 13-6 Saturday to launch the 1946 college gridiron season in Pennsylvania.

BO
NOBODY ELSE HAS ANSWERED MY AD ABOUT A DOG FOR SALE, SO I'LL HAVE TO PUT UP PANSY FOR THE NIGHT.

WHERE'LL YOU PUT HER?

THEY CAN'T LEAVE THAT MUTT LOOSE OR SHE'LL CHASE ME ALL OVER THE HOUSE.

THEY CAN'T PUT HER IN THE CELLAR SHE'S AFRAID OF ME.

I KNOW, SHE CAN SLEEP IN MY ROOM, I'VE GOT BO'S BED, I'LL KEEP MY DOOR SHUT.

GOSH, WHAT'S THAT NOISE?

THE DOG IS THUMPING.

Sets Mile Mark

TITAN HANOVER, the Hambletonian champion, is the new owner of the mile record for three-year-old trotters. Titan Hanover stepped the distance in 1:58 flat at Duquoin, Ill., beating the former mark of 1:58½, held by Dean Hanover.

Andersson Fails To Break Record

GOTHENBURG, Sweden, Sept. 10.—(INS)—Gunder Hag's world record of 4:01.4 for the mile is still safe.

Arne Andersson, Sweden's speed-boy schoolteacher, tried hard to set a new mark in Sweden's international track meet Sunday, but fell far short of his goal.

In a dramatic race Andersson overhauled Sydney Woodersson of England in the stretch and won in 4:03.8.

Hag did not compete in the mile but won the 2,600-meter run in 4:13.8, two seconds over the world record.

Amateur Baseball Title At Stake

HARRISBURG, Sept. 10.—(INS)—Amateur ball players representing Baltimore, Md., and Harrisburg were slated for a contest under the stars tonight in what may be the deciding game in the championship playoffs of the All American Amateur Baseball Association's tournament.

Because rules provide that a team losing two games in the tourney must be eliminated, undefeated Baltimore can win the crown tonight by defeating Harrisburg which has already dropped one game.

Bowling Captains To Meet At Eagles

A meeting of the captains of the various teams in the Eagles Club bowling league will be held at the club rooms at 8 o'clock Tuesday evening, it was announced today.

The meeting is for the purpose of picking teams for the 1945-46 season and to discuss and adopt new rules.

Sharpsville High Upsets Bessemer

Score Is 12 To 0 In Opening Game For Both Schools Saturday Night

(Special To The News)

SHARPSVILLE, Sept. 10.—Sharpsville High School football team opened the 1945 season here Saturday night under the lights before some 3,000 fans, by defeating Bessemer High's inexperienced and light eleven by a score of 12 to 0.

The first score for Sharpsville came in the first period when after Bessemer failed to gain, the Bessemer team kicked to the "Sharps" and they marched from near mid-field to the three-yard line from where Frank Erme, veteran halfback ran the ball over.

Sharpsville tallied again the second period after a sustained drive down the field with Dick Ellison the big fullback hugging the leather over from the one-yard mark.

Sharpsville Superior
Bessemer High only picked up two first downs in the game, and never threatened the "Sharps" goal at any time. The Sharpsville team recorded 11 first downs in the contest. Bessemer only had five letter winners from 1944 in the game.

Erme, a freshman handled the quarterbacking job like a veteran, for Bessemer.

Coach William Ciccone of the Bessemer team was pleased by the showing made by his charges in the first game for him as coach of Bessemer High. Ciccone succeeds Joe Weresuk who has transferred to Meadville High as assistant coach.

Coach Red Johnson of Sharpsville is confident that his "Big Red" team will cause a lot of trouble in Mercer County circles this season.

Friday afternoon at 3 o'clock Bessemer will play Mercer High at the Grove City High field, and Saturday Sharpsville will be hosts to Titusville at Sharpsville in a night battle.

The lineup and summary:
Bessemer pos. Sharpsville
Nelson pos. 1, Dander
Phillips pos. 1, Malschinski
Cicheri pos. 1, Flacco
Martin pos. 1, Bumbalig
Mioni pos. 1, Lefes
Flick pos. 1, Shubert
Donaldson pos. 1, Patterson
Percie pos. 1, Perlett
Blanchi pos. 1, Erme
Kamata pos. 1, Campbell
Verzilli pos. 1, Ellison
Score by periods:
Sharpsville 6, 6, 0, 0-12
Bessemer 0, 0, 0, 0-0
Touchdowns—Sharpsville—Erme, Ellison.

Points after touchdown—Sharpsville 0 out of 2 by placement. Bessemer subs—Tomassello, Baird, Brown, Madrid, Pezzuolo, Deotto.

Snead Is Winner In Dallas Open

DALLAS, Tex., Sept. 10.—(INS)—Sammy Snead of Hot Springs, Va., walked away with the \$10,000 Dallas open tournament but his earnings for the season today still were far behind those of Byron Nelson, top money winner of this year and last.

His 4-under-par 68 final round yesterday gave him a 72-hole total of 276, 12 under regulation figures, and a 4-stroke advantage over the runner-up, Harold "Jug" McSpaden of Sanford, Me.

SCHMELING ACQUITTED
LONDON, Sept. 10.—(INS)—Reuters reported from Hamburg today that Max Schmeling, former heavyweight champion of the world, was acquitted by a military court of having made a false statement to a member of the Allied forces on a matter of official concern.

LAWRENCE COUNTY SPORTSMAN'S ASSOCIATION will meet at 8 o'clock Tuesday night in V. P. W. hall, East Washington street, according to President Robert Lamore. The war over unofficially it is probable that light promoters will be required to dish out better attractions if they expect to continue gathering in the big gates.

Buster Pagley, son of Tommy Leach, of the Jefferson A. C., has been honorably discharged. He served in the local artillery and was overseas about three years. He's a heavy-weight now.

Sports Week carried a story recently that during a training by Ezzard Charles of Cincinnati, now in service, boxed with and set down Billy Conn. Several GIs verified the report according to Marty Ben editor of the publication. Although disturbed by the report that Noble Jorgenson, his basketball high scorer, is planning to transfer to Marshall College, Grover Washburn and his assistant, Mel Heister, Westminster College have gone to Canada to fish. Ed Latta, six feet six inches tall, who has been in service is expected to return to Westminster.

Penn State opens the football season against Muhlenberg, September 29. More than 50 Lions are in training according to Coach Bob Higgins. Only newcomer to the Lions is Tubby Long, Castle seasoner. Edwood Petchel, Easton, has been reclassified in the draft and has notified Higgins he expects to be called into service soon. Walker golf cup play may be resumed within two years. Brown trout are a European species; rainbow trout are native to the Pacific coast. First plantings of both species were made in the waters of Michigan in the 80's.

Nick Casillo, local outdoorsman and tiler, has a swell story on animals, birds and insects in the August edition of the Pennsylvania Game News. "I voted for the dog ordinance, not for the purpose of taking people's dogs away if they bark but to be able to take away a good dog from a man who won't keep it fed and watered. When a good dog is taken away from an owner of this kind we are doing the dog a favor," said Mayor John F. Haven today. No one will take issue with that stand. The mayor's setter, a good one, was killed sometime ago. However, he'll be in the field with one this fall.

Met Johnny Jennings, former lightweight, several days ago. "Jackie King, Wampum, now dead and Frankie Borzsi gave me my hardest fight," Johnny said. He was discharged from service some time ago. Met the good crowd shooter, Frank Tamburini several days ago. For lack of shells he has not been on the job recently. However, the crows have not heard the last explosion of Frank's shotgun. He has done farmers a great service during the years past. Walter Ringer, one of the best ever of Moose sport shooters, is outlying at East Brook.

As an unintentional comic, Danny Cardella, Giants outfielder, has few equals. Although modest, his impetuosity simply won't let him remain in obscurity according to the New York Sun's Frank C. Trust. People who own vacant lots ran on a service to youthhood by permitting them to play on the lots instead of shunning them into the street where they dodge autos while playing touch and pass. The boys of yesterday are the soldiers of today and the youngsters of today are the soldiers of tomorrow. Frank Sargent anticipates that city air raid wardens and auxiliary police of the OCD may form permanent organizations here.
